

The Youth Leadership of the Guardians of the Cedars Party issued the following communiqué:

October 13 is a dark page in the history of Lebanon and a stain of shame on humanity

October 13 is a vile crime, not only against Lebanon, but against freedom and democracy in the world.

October 13 is a wide conspiracy executed by outside conspirators and inside colluders to eliminate the last bastion of freedom in Lebanon and in this East that is drowning in the abyss of oppression and tyranny.

On October 13, the world offered Lebanon as a free for all to the most tyrannical dictatorship in the world.

On October 13, Lebanon fell into the claws of the most vicious occupation in contemporary history, and with it the dream of the Lebanese people in building a State founded on freedom, passion and the dignity of human beings.

On October 13, the forces of evil vanquished the forces of good, and Lebanon went into a long night of enslavement, repression, and subservience, during which the Governor of Damascus had a free hand in killing the country of the Cedars.

But in spite of everything, Lebanon persisted, and its people stood up to the conspiracy and vanquished death. On the morning of March 14, the people of Lebanon rose from their ashes like the Phoenix bird.

On this painful remembrance, we reiterate our faith in a one and unified Lebanon, in a sovereign and independent Lebanon, and in the Lebanese identity of Lebanon. We pledge to God that we will remain this nation's true voice and its living conscience.

Lebanon , at your service
